

THE Labra

BROTHERS

BIO

The secret of the Labra Brothers entertainment appeal and confident energetic performances is rooted in their solid multi-instrumental musicianship strength. But their creative and modern blend of groove-style harmonies with Latin/R&B and Funk/Soul comes from their own unique intergenerational heritage of Latin troubadours via the steel town cultural mecca of their Youngstown, Ohio hometown.

The Labra Brothers multi-genre mastery and cross-generational fans takes this band from country clubs to casinos, and from nightspots to weddings to festivals.

"The Labra Brother's musicianship is so tight and well defined..."

- Guy D'Astolfo *The Vindicator*

A Labra Brothers stage show event is an adrenaline anchor performance that includes rapid-paced jams, funk guitars, sax and smooth R&B vocal harmonies. The band released its first full-length LP, "Colder Weather", in 2019. The band's lineup includes frontmen Adrian Labra vocals/guitar, Cristian Labra vocals/bass, and David Labra vocals/guitar/sax. Completing the band is Danny Svenson on keys and Matt Hayes on percussion.
